ACE AT A GLANCE

A trusted IT consulting and delivery partner providing staff augmentation, software development, cloud and AI/ML solutions tailored to each client's operating model.

01 Build

Custom applications, mobile solutions, APIs, digital platforms and modern user experiences.

02 Modernize

Cloud architecture, integration, automation, data platforms and DevSecOps.

03 Scale

Flexible technology talent and project teams aligned to client delivery goals.

PUBLIC-SECTOR FOCUS

Built for the realities of government technology

We combine delivery discipline with an understanding of procurement, compliance, accessibility, security and long-term operational support.

GOVERNMENT VALUE PROPOSITION

Modernize citizen services while protecting continuity, controlling risk and improving transparency.

- Florida public-sector experience
- Flexible staffing and project delivery
- Security- and compliance-aware execution
- Knowledge transfer and operational continuity
- Scalable solutions designed for adoption

Citizen Experience

Portals, mobile apps, workflow automation and accessible digital services that simplify interactions.

Application Modernization

Legacy assessment, modular modernization, API enablement and cloud-ready architectures.

Data, AI & Automation

Responsible AI, analytics, document intelligence and agent-assisted workflows.

Program & Workforce Support

Project teams and specialized talent that integrate with agency processes and standards.

CORE CAPABILITIES

A connected portfolio from strategy to operations

Our teams engage at the point of greatest need - advisory, solution delivery, modernization, staffing or managed support.

01

AI, GenAI & Automation

AI strategy, proof-of-concept, RAG, intelligent workflows, agentic solutions and responsible AI governance.

02

Custom Software & Mobile

Enterprise applications, citizen portals, mobile apps, SaaS products, ERP/CRM and e-commerce.

03

Cloud & Platform Engineering

Azure, AWS and Google Cloud architecture, migration, containerization and scalable platform services.

04

Data & Analytics

Data engineering, dashboards, BI, ML, NLP and decision-support solutions.

05

Integration & DevSecOps

APIs, workflow integration, CI/CD, testing automation, monitoring and secure delivery practices.

06

IT Staff Augmentation

Flexible access to qualified specialists, project teams and hard-to-find technology skills.

AI & INTELLIGENT AUTOMATION

From generative content to goal-directed execution

Ace InfoTech can help clients move beyond isolated pilots toward secure, useful AI capabilities embedded in real workflows.

01 Generative AI

Secure copilots, content generation, summarization and enterprise knowledge assistants.

02 Agentic AI

Goal-driven agents that plan, use approved tools, validate outputs and escalate for human approval.

03 Machine Learning

Prediction, classification, NLP, document processing and decision support.

04 Responsible AI

Governance, privacy, evaluation, human oversight and risk-based

Typical use cases: citizen-service assistants • proposal and document intelligence • case triage • knowledge search • workflow orchestration

DELIVERY MODEL

Disciplined execution with transparent checkpoints

A flexible, outcome-focused approach that can begin with a focused discovery or scale into a multi-team program.

1 **Discover** — Clarify objectives, stakeholders, constraints, data, systems and success measures.

2 **Design** — Define target experience, architecture, delivery roadmap, controls and adoption plan.

3 **Build** — Deliver iteratively with demos, automated testing, documentation and stakeholder feedback.

4 **Deploy** — Release safely, train users, support cutover and monitor operational performance.

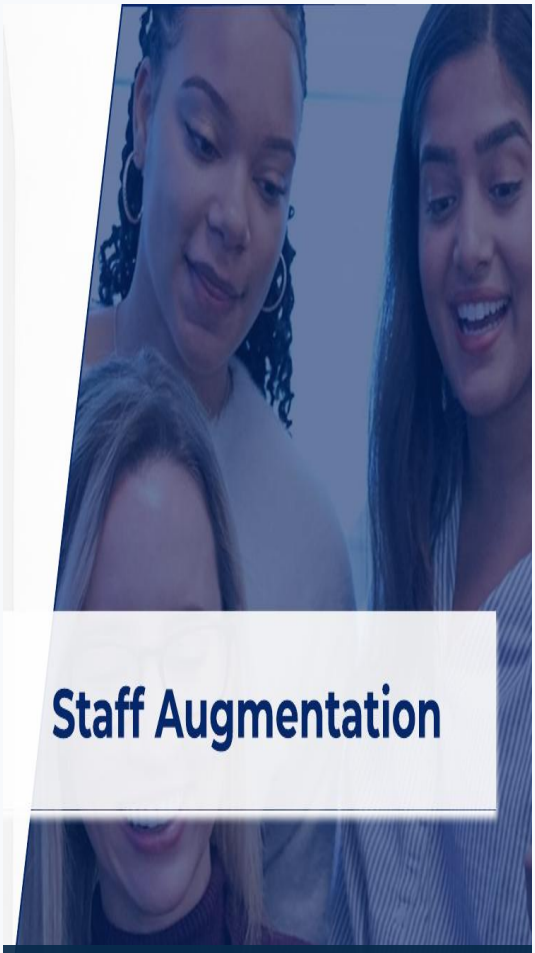
5 **Optimize** — Measure value, improve workflows, transfer knowledge and expand proven capabilities.

Governance across every phase: security • accessibility • quality • change management • documentation • knowledge transfer

WORKFORCE SOLUTIONS

Specialized talent that integrates quickly and delivers responsibly

Scale up for urgent needs, strengthen a long-term team or assemble a focused project pod without sacrificing delivery discipline.



**RIGHT SKILLS.
RIGHT TIME.
ONE TEAM.**

Flexible Engagements

Individual specialists, blended teams, project pods and scalable augmentation aligned to the client operating model.

Specialized Expertise

Application, cloud, data, AI, cybersecurity, QA, project management, ERP/CRM and support roles.

Seamless Integration

Resources adapt to client tools, culture, governance, communication and delivery cadence.

Continuity & Knowledge Transfer

Structured onboarding, documentation, collaboration and transition practices reduce operational risk.

TECHNOLOGY ECOSYSTEM

Modern platforms, practical engineering and fit-for-purpose choices

We select technology based on business outcomes, enterprise standards, security, maintainability and total cost of ownership.

AI & Data

Python • Pandas • NumPy • ML/NLP • Power BI • Elasticsearch

Application

Java • .NET • JavaScript • Node.js • PHP • Native iOS/Android

Cloud

Microsoft Azure • AWS • Google Cloud • Kubernetes • Docker

Data Platforms

SQL Server • MySQL • MongoDB • Redis • Kafka

DevOps & Integration

Jenkins • CI/CD • APIs • Microservices • Messaging

Design & Low Code

Figma • Microsoft Power Platform • UI/UX prototyping

Architecture principle: secure by design • API-first • cloud-ready • observable • accessible • maintainable

EXPERIENCE & TRUST

Relationships across government, education and enterprise

Our client portfolio reflects experience supporting mission-focused organizations with technology delivery and specialized talent.

SELECTED CLIENTS

Florida Health • Florida Lottery • Florida Commerce • public safety, education, local government and higher-education organizations

Client marks are shown for experience reference. Engagement scope and delivery vary by organization.

WHY ACE INFOTECH

A responsive partner with the scale to deliver and the focus to care

We pair enterprise-grade methods with the accessibility, accountability and flexibility of a focused technology firm.

01 Public-sector context

Experience navigating government priorities, stakeholder environments and operational constraints.

02 Outcome-focused delivery

Solutions shaped around measurable business value - not technology for technology's sake.

03 Flexible scale

Engage one specialist, a complete delivery pod or a multi-disciplinary program team.

04 Modern capability

AI, cloud, data, applications, automation and workforce solutions under one accountable partner.

05 Transparent collaboration

Clear communication, iterative demonstrations, documented decisions and visible risks.

06 Long-term partnership

Knowledge transfer, maintainability and practical support built into the delivery approach.

PIONEERING EFFICIENCY • INSPIRING INNOVATION • EMPOWERING GROWTH

LET'S BUILD WHAT'S NEXT.

Partner with Ace InfoTech to modernize services, unlock data and AI, and scale delivery with confidence.
